

How to Use?

Neverblock - iOS

Step 1

Please download installer OS X on
Neverblock website.

The screenshot shows the Neverblock website interface. At the top, there is a navigation bar with the Neverblock logo (a red circle with a white 'N' and a red slash) and the text "NEVERBLOCK" in bold, with "PROVIDE ANONYMITY, SECURITY AND FREEDOM WITH A BROWSER EXTENSION" in smaller text below it. To the right of the logo are links for "LOGIN" and "REGISTER". Below the navigation bar is a large banner with a light blue background featuring a network diagram of nodes and lines. The banner contains three columns of text: the first column discusses online anonymity and recommends a VPN service; the second column discusses saving bandwidth and using the service ethically; the third column encourages sharing the service with friends. Below the banner is a "DOWNLOAD" section with five icons representing different operating systems: Android, OS X, Windows, iOS, and Linux. The OS X icon is highlighted with a red-to-blue gradient circle. Below each icon is its respective label: "ANDROID", "OS X", "WINDOWS", "IOS COMING SOON", and "LINUX COMING SOON". On the far right of the page, there is a vertical sidebar of red circular icons: a home icon, an information icon, a checkmark icon, a menu icon, and a download icon. At the bottom of the page, there is a dark grey footer bar containing links for "Disclaimer", "Term of Service", and "Privacy Policy".

Disclaimer Term of Service Privacy Policy

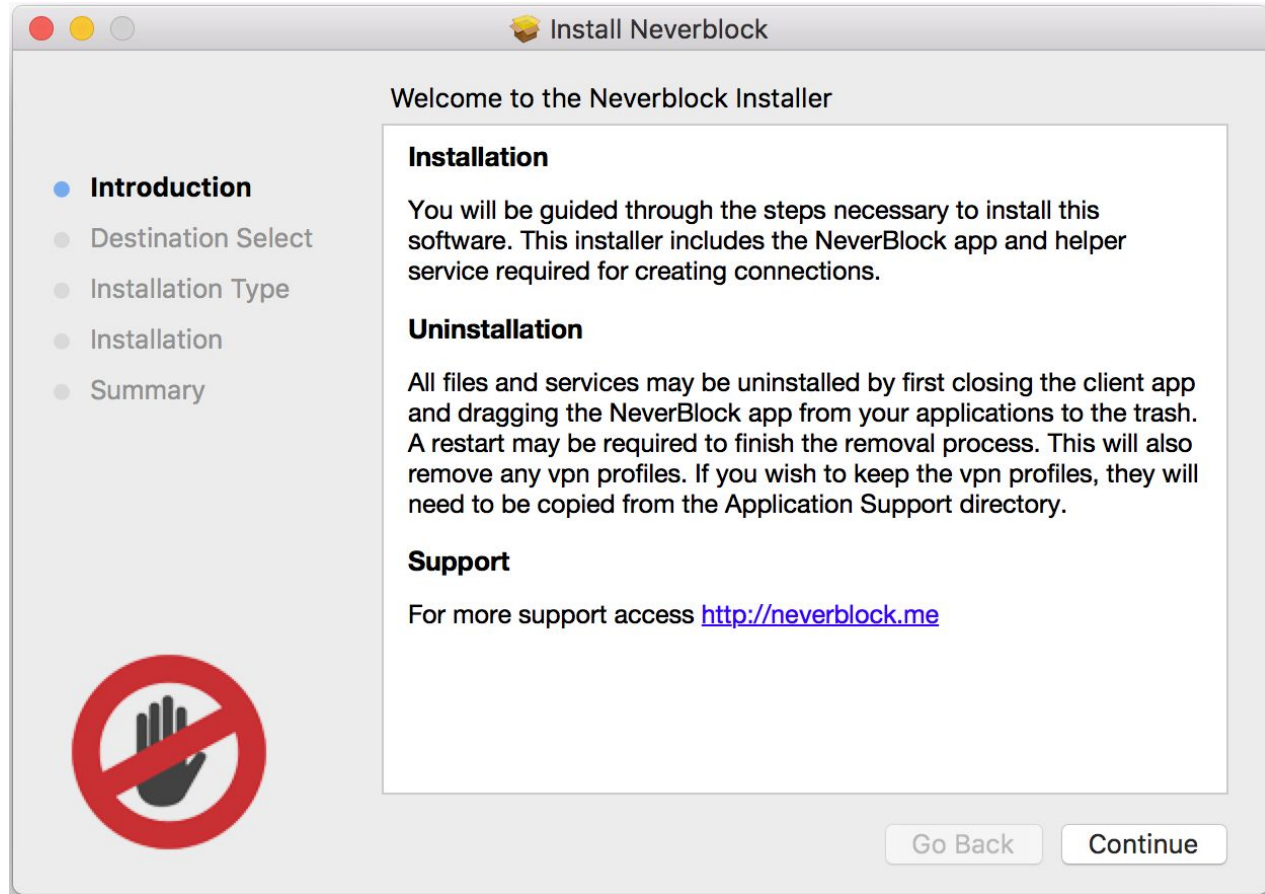

Step 2

First, open **System Preferences**, then choose **Security and Privacy**, then choose **App Store and identified developers** on the **Allow apps downloaded from**.

Step 3

Please run the installer and click **continue**.

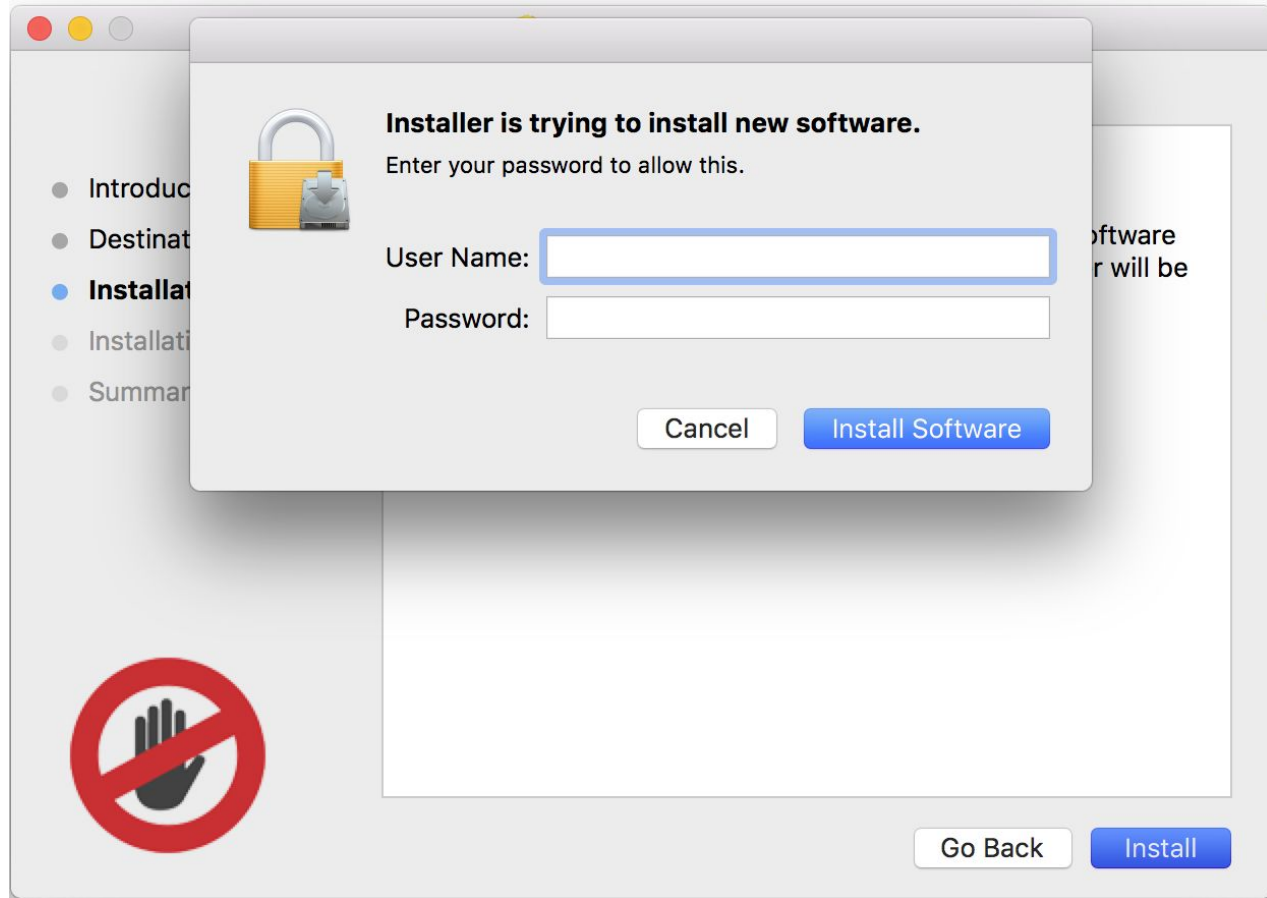

Step 4

Click **Install** to continue.

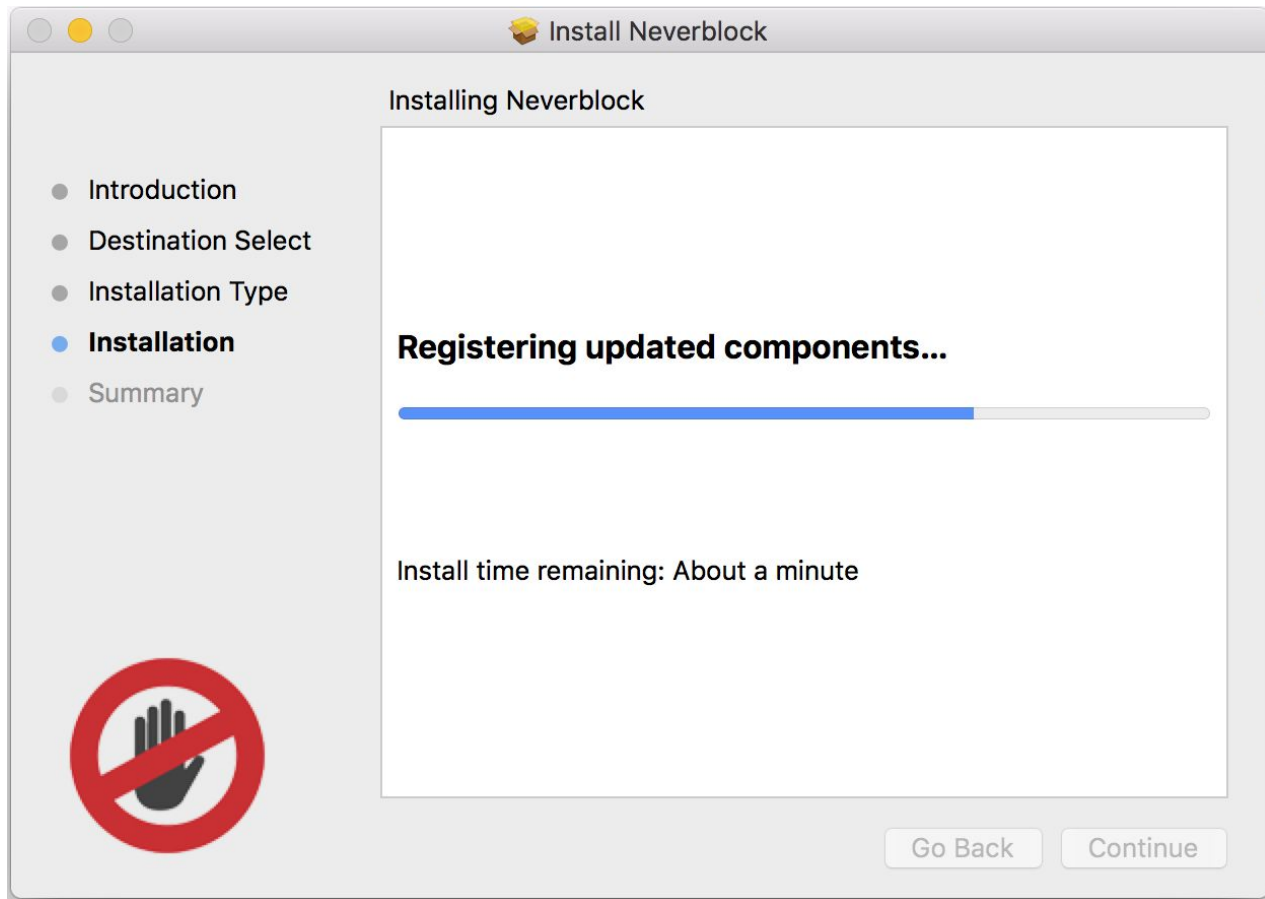

Step 5

Please enter your **AppleID** username and password, then click **Install Software**.

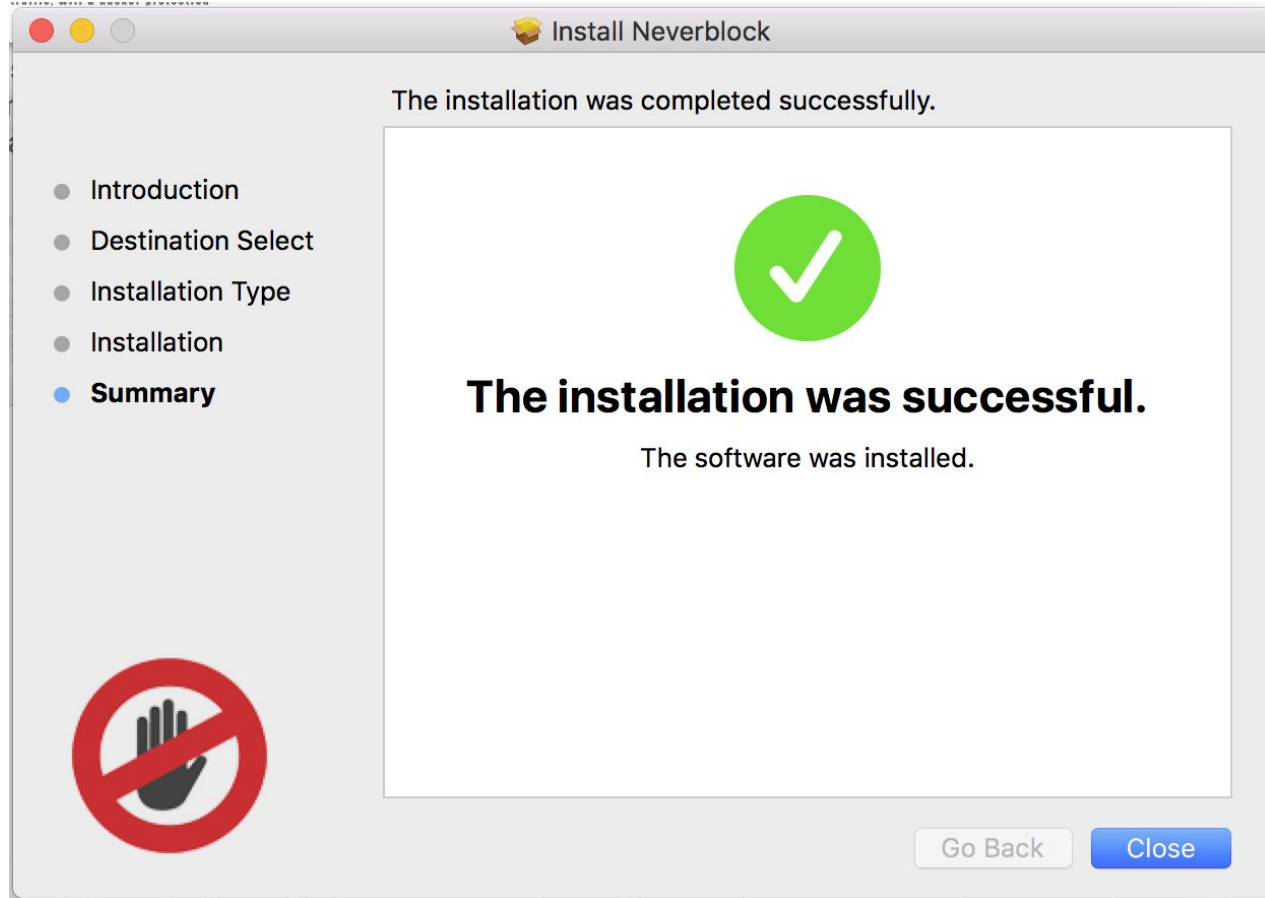

Step 6

Wait until the installation is finished.

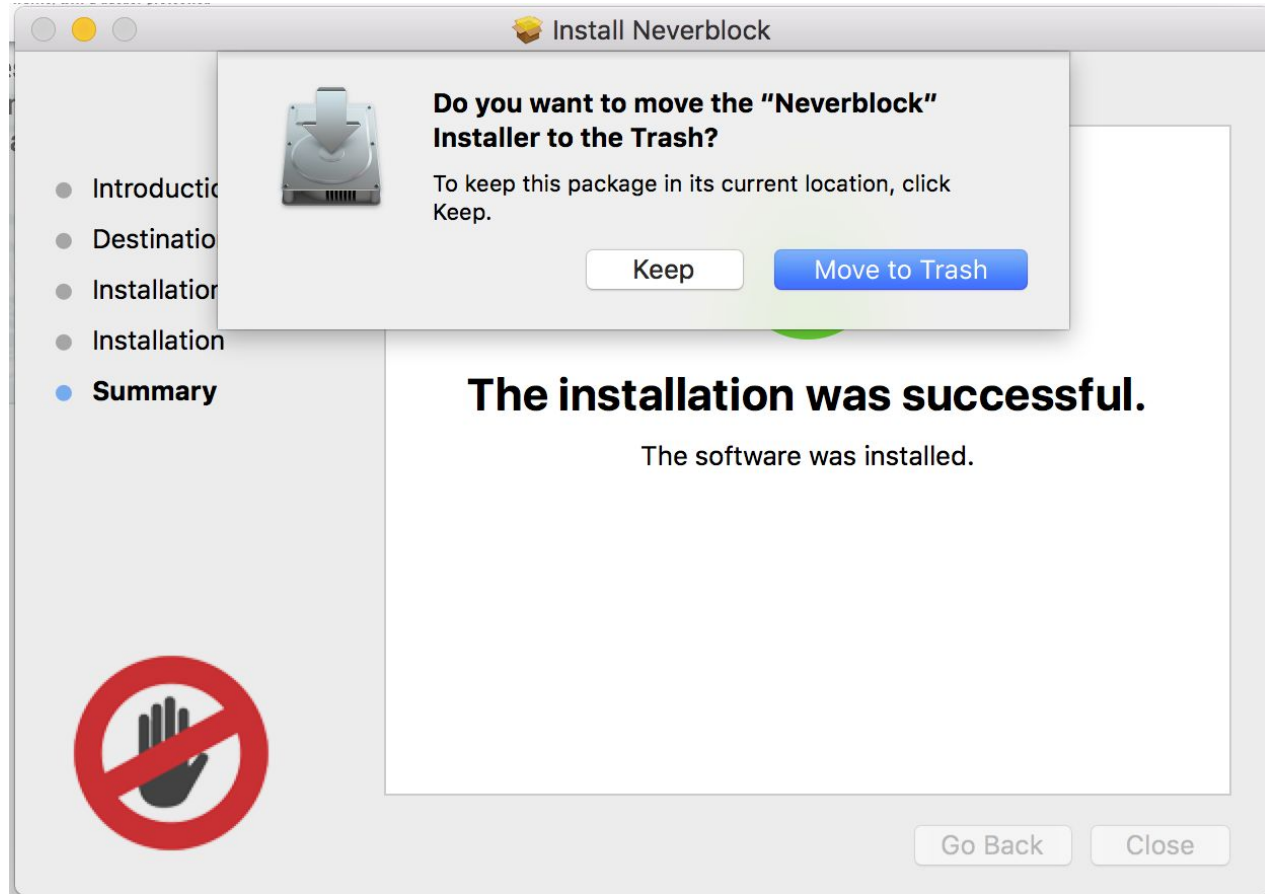

Step 7

Please click **Close** after finishing installation. Your PC already has Neverblock App.

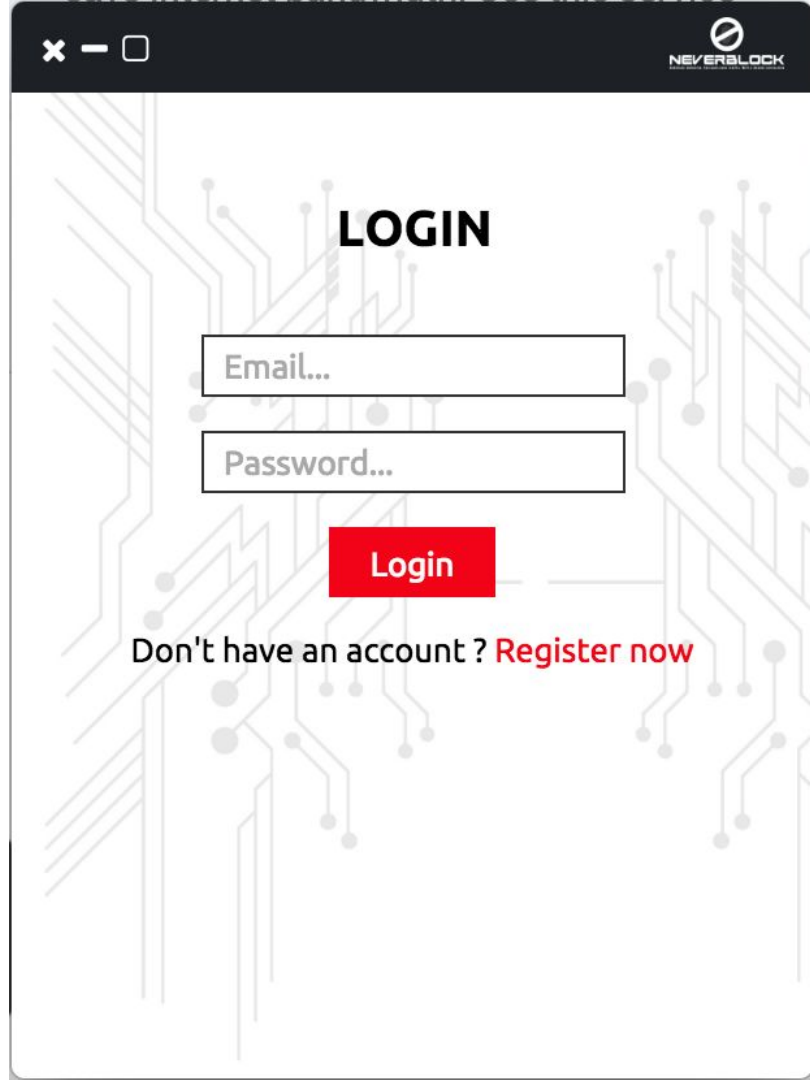

Step 8

After install, if you do not want to remove Neverblock Installer, click **Keep**. Otherwise click **move to trash**.

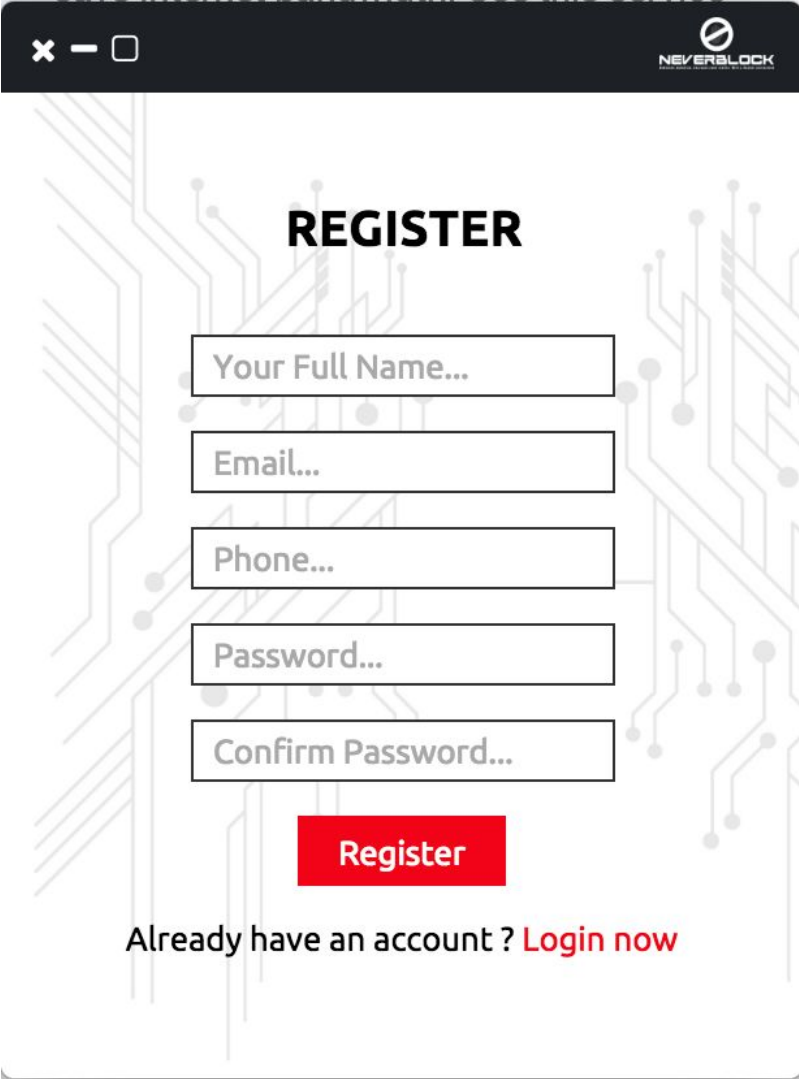

Step 9

Please open your Neverblock and login with your Neverblock **username** & **password**. If you do not have any account, please click **Register now**.

Step 10

Please fill out this field and click **Register**. Then, check your inbox mail to verify your account.
